Indianapolis City Directory.

FOR 1885.

EMBRACING A COMPLETE ALPHABETICAL LIST OF BUSINESS FIRMS, PRIVATE CITIZENS, AND AN IMPROVED CITY MAP, A DIRECTORY OF THE CITY, COUNTY OFFICERS, CHURCHES AND PUBLIC SCHOOLS, BENEVOLENT, LITERARY AND OTHER ASSOCIATIONS, BANKS, INCORPORATED INSTITUTIONS, INDIANA STATE GOVERNMENT, ETC., ETC.

TO WHICH IS ADDED A

COMPLETE CLASSIFIED BUSINESS DIRECTORY

OF INDIANAPOLIS.

INDIANAPOLIS:
COMPILED AND PUBLISHED BY R. L. POLK & CO.
CARLON & HOLLENBECK, PRINTERS AND BINDERS.
1885.

Entered according to an act of Congress, in the year 1885, by R. L. Polk & Co., in the office of the Librarian of Congress, Washington, D. C.

INTRODUCTORY

In presenting the thirtieth volume of the Indianapolis City Directory to the public, we feel assured that it will be found fully equal to any heretofore issued. The present volume contains nearly 40,000 names, including Brightwood, North Indianapolis, Irvington, Belmont, Mt. Jackson and Haughville. This shows a decided increase over last year, notwithstanding the depression in business circles under which our city has labored during the past few months. The city of Indianapolis has a world-wide reputation as a railroad center, and is rapidly growing in favor as a manufacturing point, it being unequaled as a distributing center. In the compilation of this edition, nothing that experience could suggest has been neglected to make it as accurate as possible.

We have added the number and street where each person is regularly employed, as well as the number where each one keeps house or boards, on pages 81–649. This new addition will be most useful in finding persons at their respective places of business, who live away from the center of the city, or in the suburbs. This new feature makes this portion of our book a Double Directory, to what it and other Directories have heretofore been.

The general business of the city, in spite of the disquieting times experienced during the past year, has remained in a healthy state; and the publishers would thank the business public for a patronage not decreased by the rumors and uncertainties of the day.

Medical and Surgical Directory

—OF THE—

UNITED STATES,

R. L. POLK & CO.,

PUBLISHERS.

—:o:—

The need of a complete and reliable Directory of Physicians and Surgeons of the United States is so apparent that we have decided to establish one.

The first volume will contain a full and accurate list of all Physicians in each State, arranged by States and Territories, and compiled alphabetically under the name of the city, town or village in which the physician is located, and showing the school practiced by each, the postoffice address, as well as the population of the place. In large cities the office number and street will be given. The work will also contain complete lists of all medical journals, their regular subscription price, names of editors and frequency of publication; all medical colleges, hospitals, asylums, private sanitariums, water cures and health resorts in the United States, and much other information of value to the profession, and those whose business is directly or indirectly connected therewith. The whole will be so arranged that the names and locations of all Physicians in each State, city or village can be found at a glance. When specially desired, the name of college and class of graduation will be inserted after the name.

RATES OF POSTAGE ON FIRST-CLASS MATTER.

On letters, sealed packages, mail matter wholly or partly in writing, except book manuscripts and corrected proofs passing between authors and publishers, and except local or drop letters, or United States postal cards; all printed matter so marked as to convey any other or further information than is conveyed by the original print, except the correction of mere typographical errors; all matter otherwise chargeable with letter postage, but which is so wrapped or secured that it can be conveniently examined by postmasters without destroying the wrapper or envelope; all packages containing matter not in itself chargeable with letter postage, but in which is enclosed or concealed any letter, memorandum, or other thing chargeable with letter postage, or upon which is any writing or memorandum, all matter to which no specific rate of postage is assigned; and manuscript for publication in newspapers, magazines or periodicals, two cents for each half ounce or fraction thereof.

On local or drop letters, at offices where free delivery by carriers is established, two cents for each half ounce or fraction thereof.

RATES OF POSTAGE ON SECOND-CLASS MATTER.

The rate of postage on newspaper and periodical publications of the second class, when sent by others than publishers and news-agents, shall be one cent for each four ounces or fractional part thereof, and shall be fully prepaid by postage stamps affixed to such matter.

This act in no wise enlarges the rights of publishers and news-agents.

All persons, not of these classes, are entitled to send through the mails, without regard to place of mailing, destination or distance, newspapers and periodical publications of the second class, weighing not more than four ounces, by affixing thereto a one cent postage stamp.

The following articles are mailable at the rate of two cents for each pound or fraction thereof: Newspapers, magazines and periodicals, exclusively in print, and regularly issued at stated periods from a known office of publication, without addition by writing mark or sign, and addressed to regular subscribers.

A regular subscriber is a person who has actually paid, or undertaken to pay, subscription price for a newspaper, magazine or other periodical, or for whom such payment has been made, or undertaken to be made, by some other person. But in the latter case, such payment must have been made, or undertaken with the previous consent, or at the previous request of the person to whom such newspaper, magazine or periodical is sent. A person to whom any such publication is sent, without his consent or request, is not a "regular subscriber" within the meaning of the law, and if there be no evidence of prepayment on the package, double transit rates of postage must be rated up and collected on delivery.

THIRD-CLASS MATTER.

The following articles are mailable at the rate of one cent for every two ounces or fractional part thereof:

Pamphlets, occasional publications, transient newspapers, magazines, books, periodicals, hand-bills, posters, sheet music (printed), propectuses, maps, proof sheets, regular publications designed primarily for advertising purposes or free circulation, at nominal rates, and corrected proof sheets. All matter of the third class not enumerated above, is one cent for each ounce or fraction thereof.

FOURTH-CLASS MATTER.

The following articles are mailable at the rate of one cent each ounce or fraction thereof: Blank cards, card-board, and other flexible material, flexible patterns, letter envelopes and letter paper without printing thereon, merchandise and samples of merchandise, models, ornamented paper, sample cards, samples of ores, metals, minerals, seeds, cuttings, bulbs, roots, scions, drawings, plans, designs, original paintings in oil or water colors, and any other matter not included in the first, second or third classes, and which is not in its form or nature liable to destroy, deface or otherwise damage the contents of the mail bag, or harm the person of any one engaged in the postal service.

POSTAL CARDS.

The object of the postal card is to facilitate letter correspondence, and provide for the transmission through the mails, at a reduced rate of postage, of short communications, either printed or written in pencil or ink. They may, therefore, be used

for orders, invitations, notices, receipts, acknowledgements, price lists and other requirements of business and social life; and the matter desired to be conveyed may be either in writing or in print, or partially in both.

In using postal cards, be careful not to write or have anything printed on the side to be used for the address, except the address; also be careful not to paste, gum or attach anything to them. They are unmailable as postal cards when these suggestions are disregarded.

THE FOLLOWING ARTICLES ARE UNMAILABLE.

Packages containing liquids, poisons, glass, explosive chemicals, live animals, sharp-pointed instruments, sugar, or any other matter liable to deface or destroy the contents of the mail, or injure the person of anyone connected with the service. All letters upon the envelope of which, or postal cards upon which, obscene, scurrilous, or abusive epithets have been written or printed, or disloyal devices, printed or engraved, and letters and circulars concerning illegal lotteries, so-called gift concerts, or other similar enterprises offering prizes, or concerning schemes devised and intended to deceive and defraud the public. Also, all obscene, lewd, or lascivious books, pamphlets, pictures, papers, prints or other publications of an indecent character.

FORWARDING LETTERS.

All first-class matter (letters and postal cards) may be forwarded as often as is necessary, even though they have been taken from the postoffice; but all other classes of matter (newspapers, circulars and merchandise), must have the postage paid anew each time they are forwarded.

LETTERS RETURNED TO WRITERS.

All letters unclaimed, upon which are indorsed the names and addresses of the writers, will be returned whether a specific *request* for such return is indorsed or not—provided the original postage has been prepaid according to law.

Medical and Surgical Directory

—OF THE—

UNITED STATES,

R. L. POLK & CO.,

PUBLISHERS.

———:o:———

The need of a complete and reliable Directory of Physicians and Surgeons of the United States is so apparent that we have decided to establish one.

The first volume will contain a full and accurate list of all Physicians in each State, arranged by States and Territories, and compiled alphabetically under the name of the city, town or village in which the physician is located, and showing the school practiced by each, the postoffice address, as well as the population of the place. In large cities the office number and street will be given. The work will also contain complete lists of all medical journals, their regular subscription price, names of editors and frequency of publication; all medical colleges, hospitals, asylums, private sanitariums, water cures and health resorts in the United States, and much other information of value to the profession, and those whose business is directly or indirectly connected therewith. The whole will be so arranged that the names and locations of all Physicians in each State, city or village can be found at a glance. When specially desired, the name of college and class of graduation will be inserted after the name.

Patents.

Believing myself qualified, by a long and varied experience, to properly attend to any of the various branches of my profession, I respectfully invite those who desire to procure Letters Patent, which will fully protect their inventions, to investigate my ability to satisfy their wants.

Reissues.

Since the late decisions of the Supreme Court, virtually rendering invalid a large proportion of Reissued Patents, it is more than ever important that original applications be prepared, with the utmost care, as Reissues can not now be relied on to protect Patent property.

E. E. SICKLER,

SOLICITOR OF PATENTS!

MODEL AND PATTERN MAKER.

EXPERT IN MECHANICAL DRAWING AND DESIGNING.

Manufacturer of the Sickler Wire Stretcher and Pliers, and the Sickler Sulky Plow.

Light Patented Articles Manufactured for the Trade.

68 Virginia Avenue,

INDIANAPOLIS, IND.

MECHANICAL KNOWLEDGE.

For nearly ten years, previous to entering my present profession, I devoted my attention mostly to mechanical and kindred subjects, having been engaged for a considerable portion of that time in setting up and running machinery. I have therefore a good knowledge of MECHANICS, as well as Patent LAW, and that knowledge is practical, as well as theoretical. This enables me to thoroughly understand and appreciate new inventions when laid before me.

Miscellaneous.

Investigations made to determine the advisability of contemplated litigation of Patent Claims, and advice given in relation thereto. Will appear as Expert in suits for infringement of Patent rights, Assignments, Licenses and Contracts relating to Patents prepared and recorded. Rejected and forfeited cases taken up and prosecuted to final result, and business generally, relating to Patents, given careful attention.
